### Fine Japanese foods from Samsi

Samsi has been trading for 15 years, specialising in Japanese cuisine and food stuff. It began as an award winning restaurant, which quickly expanded into four different cities in the North west of England. In response to customer request we began importing and selling ingredients in retail sizes while continuing to search Japan for the highest quality restaurant ingredients.

We research every country for trends in Japanese dining in restaurants, hotels, and in homes. From the UK, we can supply worldwide reliably. Our recent expansion has been the manufacture of Japanese ready-meals in noodle, bento-lunchbox, and sushi packs. These have been developed with Manchester Metropolitan University. The taste test studies carried out by the university supported our ideal that the ready meals are restaurant quality. We not only deal with food products, but we also provide tableware to assist you in experiencing the most authentic Japanese style.

Whatever your request may be, we are certain to providing you with the best quality and service to suit your needs.

36-38 Whitworth Street, Manchester M1 3NR
